

Filiming & Photography Notice of No Objection

ALL filming in Hillingdon Parks has to have permission from Hillingdon Council. This is for all events including British Cycling photographers. If it is someone taking a photo of their child/fellow club member that is fine. However if it is to be used in a public domain eg the club's website, social media etc the club should get a "Notice of No Objection" from the Council.

This is not required for every photo but once you have the Notice of No Objection for general photo's it should be okay. However if there is a film crew involved at all, they have to have a full licence from the council. They have to prove they have public liability insurance and will be asked a series of in depth questions about the filming.

Please contact our Film Office by calling 01895 556640 or emailing filmoffice@hillington.gov.uk with details of your request. Their website address is below.
